We're already making plans to see each other again on Wednesday!

I'm concerned tho..

About what??

I Told you...I've been feeling better! That's why I stopped taking them!

SIGH

But you did change... and I'm worried it will happen again.

There's a full moon on wednesday...

You've been off your depression meds for a month now...

I'm just... "Concerned" about you.

That's all!
